Subject: Insurance information

Hello John,

I am happy to finally be able to provide you information about the insurance requirements contained in the EPA contract with our prime contractor for this project, Ecology and Environment (E&E). Attached is a certificate of insurance showing E&E's existing policies, with coverage up to \$15 million. The policies will be carried forward under our existing contract with E&E. If the coverage is sufficient, Chesapeake will be added as an additional insured for the liability coverage.

Per Stephanie's E-mail message June 27th, it appears you will not need insurance information about the drilling subcontractor in order to move forward. I am hoping the above information will be adequate to allow Chesapeake to resolve their concerns about liabilities issues.

Once you have had a chance to share this information and discuss it internally, I would appreciate receiving an E-mail with your confirmation that the liability/indemnification issue is resolved. Also, we would like to receive a copy of the access agreement with the landowner to confirm that we have access to conduct our EPA activities through your agreement. As you know, we would like to make sure all the paperwork is agreed to so that we can move ahead with this project.

Please feel free for either you or Chris Hill to call me if you have any questions.

Best regards,

Mike
